

FOLLOW-UP RESPIRATORY DISEASE AND SMOKE EXPOSURE QUESTIONNAIRE, RDF QUESTION BY QUESTION (QxQ), VERSION 1.0

I. GENERAL INSTRUCTIONS

The Follow-up Respiratory Disease and Smoke Exposure Questionnaire (RDF) is to be completed by the study coordinator during the participant's SOURCE follow-up visits and/or during the Bronchoscopy Sub-study visit.

NOTES:

- For the 18-month follow-up phone call, all questions should be answered thinking back to the baseline visit as the last SOURCE contact.
- For the 3-year follow-up clinic visit, all questions should be answered thinking back to the 18-month follow-up phone call as the last SOURCE contact.
- For the Bronchoscopy Sub-study visit, all questions should be answered thinking back to either:
 - (1) the baseline clinic visit;
 - (2) the 18-month follow-up phone call; or
 - (3) the 3-year follow-up clinic visit as the last SOURCE contact that precedes the Pre-Bronchoscopy Visit 1.

Please answer every question on this form. *NOTE: All response options in the paper form may not appear in CDART (e.g., 'Don't know', 'Declines to answer', etc.).* Beside each item input is a small double bracket icon which looks like this: . Clicking this icon displays a field dialogue box in which the "Field Status" selection menu allows you to choose from the following options: 'Refused', 'No response', 'Doesn't know', 'Not applicable', 'Maximum value', 'Minimum value', and 'Missing'. **See MOP 6 – Section 3.2 for additional instructions on how to select a Field Status option.**
